

John:

Attached is a proposed response to [redacted]  
[redacted] memo of 13 October requesting NPIC  
support to the [redacted] program. I drafted  
the memo combining two earlier attempts - one  
by [redacted]

At this point in the project, it is difficult to predict with any degree of certainty what the cost of supporting this program will be. All the internal people who need to know, however, have been alerted. For instance we don't know exactly where we will find 600 sq. ft. of space to conduct this experiment, if indeed, this is as much space

I have shown this draft to [redacted] who  
have no problems with it. I believe this  
letter merely confirms what has already been  
agreed to on the working level within the NRO-  
chaired working group handling this project.
